

## About us

In the year 2018 Aeroklub Zagłębia Miedziowego celebrated 50-years anniversary of its existence. Since it was founded in 1968 till today and in the future our main goal is to educate, train and improve the skills of glider and airplane pilots.

We have trained international champions and many valued pilots flying professionally on all continents.

At service of those who want to start their sky adventure, we provide experienced and reliable instructors, gliders, airplanes, a motor glider and... unique and friendly atmosphere.

As opposed to most of the aeroclubs in Poland we are the owners of our aerodrome which establishes a perfect position for our statutory educational and sporting activities, as well as wide and excellent business opportunities.

Lower Silesian Aviation Cluster**

## If ...

- Your business is related to aviation industry in any way
- You consider opening the location of your company
- You are looking for an airport with a paved (concrete/asphalt) runway, fuel station, 24/7 security and the hangar for your aircraft while conducting flight operation all year round
- You need a location at an aerodrome for your own office and/or building
- The proximity (70 km) of region's capital (Wrocław) with international airport is important to you
- You value dependability and reliable agreements
- You hope for a partner you can trust, with many years of experience in aviation industry...

## ... we are what you are looking for.

Name what you need,
